DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 1-3, filed 6-9-06, with respect to claims 1-20 have been fully considered and are persuasive. The rejection of claims 1-20 has been withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lawrence Chapa #39,135 on 10-13-2006.

The application has been amended as follows:

Please insert the following new paragraphs at page 3, line 20, before the heading for the section corresponding to the detailed description of the preferred embodiment, as follows:

--FIG. 6 is a schematic diagram of a dynamic timeslot allocation for medium access control.

FIG. 7 is a schematic diagram of a fixed timeslot allocation for medium access control.

FIG. 8 is a schematic diagram of signaling logic for establishing an uplink packet data transfer.

FIG. 9 is a flowchart of indirect carrier sense multiple access with directed acknowledgement in a mobile station.

FIG. 10 is a flowchart of indirect carrier sense multiple access with directed acknowledgement in a base station—

Allowable Subject Matter

3. Claims 1-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: Applicant's remarks filed 6-9-06 have been fully considered and are persuasive. The closest prior art which Savuoja discloses sending an uplink state flag directed to a mobile station, but does not specifically state which is not specific to a particular mobile station. Therefore, the combination of limitations have not been found or fairly suggested in the prior art search. Also, the limitation "which is not specific to a particular mobile station" is being interpreted as "which is not specific to any particular mobile station".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
